ACCENTUM Open yhdistää brändin tunnetun äänentoiston avoimeen muotoiluun, joka ei tuki korvaa. “ACCENTUM Open was designed to complement your busy life—not complicate it,” said Friederike Menking, Product Manager. “Whether you are listening to music, catching up on a podcast at your desk or checking in with your friends on your way to the train, the ease of use is second only to the sound.”

Fidelity with freedom

At the heart of ACCENTUM Open is an 11mm dynamic transducer, seated just outside of the ear canal. Due to the open nature of the earbud, the fit does away with ear fatigue while providing awareness of your surroundings. The universal design is second nature to wear, eliminating the need for ear adapters or clips.

With Bluetooth 5.3 and multipoint connectivity, users can seamlessly switch between multiple devices, such as taking a work call on a laptop before instantly returning to a music playlist on their smartphone. The dual beamforming microphones ensure dependable hands-free call quality, filtering out background noise for additional speech intelligibility.

**Light as air**

The combination of an open earbud and ultralight stem with touch controls makes ACCENTUM Open liberating to use. Each weigh just 4.4 grams—about the same as a playing card—and is effortless to remove—for the evening or just a moment. The earbuds offer up to 6.5 hours of playback on a single charge, and a total of 28 hours when recharged with the compact case. With fast-charge capability, just 10 minutes of charging from a USB cable delivers up to 1.5 hours of listening time—perfect for bringing an extra episode or two of your favorite new show.

**Availability**

ACCENTUM Open is available in cream and black colorways from today, with an MSRP of 89.90 euros.
