

## Gapps Named 2025 Google Cloud Country Partner of the Year for Finland

Helsinki, Finland – April 9, 2025 – Gapps, a trusted Google Cloud Premier Level Partner across several product and engagement models in the Nordics, today announced it has been named the 2025 Google Cloud Country Partner of the Year for Finland. This prestigious award recognizes Gapps' achievements in the Google Cloud ecosystem, helping customers drive innovation and accelerate their cloud adoption journeys.

"Google Cloud's Partner Awards recognize partners who have created outsized value for customers through the delivery of innovative solutions and a high level of expertise," said Kevin Ichhpurani, President, Global Partner Ecosystem, Google Cloud. "We're proud to announce Gapps as a 2025 Google Cloud Partner Award winner and celebrate their impact enabling customer success over the past year."

"We are incredibly honored to be named Google Cloud Partner of the Year in Finland," says Marc Josefsson, CEO of Gapps. "This recognition is a testament to our team's dedication to helping Finnish businesses thrive by harnessing the power of Google Cloud. This award highlights our commitment to delivering innovative and secure collaboration platforms and cloud infrastructures."

Gapps has a proven track record of delivering successful Google Cloud solutions across various industries in Finland. This success is built on:

- **Deep, specialized expertise:** Gapps focuses solely on Google Cloud, fostering deep expertise and innovative solutions.
- **Customer-centric approach:** Gapps prioritizes strong relationships and personalized support, ensuring client success.
- **Commitment to innovation:** Gapps helps customers leverage cutting-edge technologies and AI to drive digital transformation.

"Gapps is more than just a technology provider; we're a trusted partner helping Finnish businesses navigate the cloud and achieve their goals," adds Josefsson. "This award further fuels our passion to empower Finnish organizations on their cloud journey."

## **About Gapps**
