

Kreate Oy has completed the acquisition of SRV Infra Oy

31.12.2025 12:00:00 EET | Kreate Group Oyj | Investor News

Kreate Oy, a member of the Kreate Group, has today, on 31 December 2025, completed the acquisition of the entire share capital of SRV Infra Oy. The transaction received approval from the competition authorities in November, and the completion of the transaction was carried out at the end of December as previously announced, with an enterprise value of approximately EUR 30 million. The acquired company's business consists primarily of underground rock construction and, to a lesser extent, foundation and special foundation engineering.

"I am pleased that the transaction was completed as planned, allowing us to start 2026 with more than one hundred new Kreate employees and expand into a new and demanding area of construction," says Timo Vikström, President and CEO of the Kreate Group.

"Underground rock construction is by nature highly demanding construction, and its outlook for the coming years is strengthened by security, preparedness and security of supply perspectives related to the geopolitical situation. The acquired company's business and its skilled personnel fit excellently with Kreate's strategy and further strengthen Kreate's position as a specialist with high competence requirements," Vikström says.

SRV Infra Oy's revenue in 2024 was EUR 52 million and operating profit was EUR 2.6 million. The company's business will be reported as part of Kreate Group's Finnish Structural engineering business as of 1 January 2026. Kreate reports all businesses as part of the infrastructure construction segment, which is the company's only reportable segment.

The acquisition has no impact on the guidance for 2025. Kreate will publish its Financial Statements Release for 2025 on 6 February 2026, in connection with which the company will also provide its revenue and earnings guidance for 2026.
