Kreate strengthens investor communications – the role of investor news will be increased through an update to the disclosure policy

24.4.2026 17:00:00 EEST | Kreate Group Oyj | Investor News

Kreate Group Plc has updated its disclosure policy. The key change in the update is increasing the role of investor news. Going forward, investor news will be used to complement stock exchange releases and press releases in situations where the news does not meet the criteria for a stock exchange release and is not inside information, but is relevant to investors.

Investor news will include, among other things, all wins and additions to the order backlog exceeding EUR 10 million that the company is permitted to publish, as well as other strategically interesting news. These may include, for example, releases related to acquisitions, new businesses or geographical operating areas.

The role of press releases will remain unchanged. Press releases will include all wins and additions to the order backlog exceeding EUR 5 million that the company is permitted to publish.

The company does not disclose projects subject to confidentiality agreements.

The objective of the updated disclosure policy is to ensure that different stakeholders receive essential information comprehensively and in a timely manner.

The updated disclosure policy is available on the company's website at: <https://kreategroup.fi/en/governance/disclosure-policy/>
