Insider information: Kempower delivers EV High Powered Charging technology to a nation-wide UK customer

Kempower has signed an agreement to deliver Electric Vehicle (EV) High Powered Charging systems to a new nation-wide customer in the UK. The delivery of the High Powered Charging systems for electric passenger cars will take place in the 2nd quarter of the year 2023. The value of the order is over EUR 5 million.

The delivery includes Kempower Satellite and Kempower Power Unit charging systems that will be deployed across the UK.

“Kempower was chosen for its dynamic power sharing capabilities, easy charging experience and a strong experience from developing High Powered Charging for retail in Finland. It's great to see how Kempower's brand has strengthened in the UK, one of the fastest growing charging markets in Europe. According to a recent survey, EV drivers in the UK recognise Kempower chargers and value the charging experience we offer,” comments Kempower CEO **Tomi Ristimäki**.
