Insider information, positive profit warning: Preliminary information on Kempower's financial performance in Q1 of 2023 and Kempower raises its earnings outlook for 2023

Strong demand for Kempower's electric vehicle charging solutions continued in the first quarter of 2023. Kempower's key figures in the first quarter of 2023 according to preliminary and unaudited calculations are the following:

Q1/2023

- Order backlog increased to EUR 124.4 million (EUR 29.1 million)
- Order intake increased to EUR 61.4 million (EUR 26.9 million)
- Revenue increased by 385% to EUR 55.8 million (EUR 11.5 million)
- Operative EBIT increased to EUR 6.9 million (EUR -1.0 million), 12.4% of revenue (-8.6%)

New outlook for 2023

Kempower raises its earnings outlook for 2023. Kempower expects:

- 2023 revenue; EUR 230–270 million, assuming no major impact of foreign currency exchange rates (revenue 2022: EUR 104 million, the revenue outlook published earlier on 15 February 2023 was EUR 180–210 million),
- 2023 operative EBIT; positive operative EBIT margin, % between 5% to 10 % (the operative EBIT margin, % outlook published on 15 February 2023 was a positive single digit operative EBIT margin, %)

Kempower continues to seek strong growth in a profitable manner. The advanced entry to North American markets in 2023 impacts Kempower's operative EBIT due to additional costs relating to recruitments and the new factory ramp up. The new manufacturing capacity in the USA is targeted to be available by the end of the 2023

The company's mid and long-term financial targets are no longer current, and they will be updated in conjunction with the Capital Markets Day on the 20th of April 2023.

Kempower will publish its Business Review for January 1–March 31, 2023 (Q1) on the 20th of April 2023 at approximately 9.30. Due to the silent period, Kempower will not give any further comments on its result before publishing the business review.
