Administer's extensive service and product offering is unique, and no other operator boasts a similar offering. Our more than 5,000 customers, ranging from Finland's largest companies to small business owners, not forgetting the international market, offer us a huge opportunity, as we currently provide only one business service to many of them. With this change, we are seeking synergies and improved efficiency in the Group's operations. The Management Team's objective is to ensure the next growth phase and a significant improvement in profitability. By reorganising the Management Teams' work, we guarantee the achievement of these objectives," says Kimmo Herranen, CEO.
