### Scanfil will publish its interim report for January-September 2022 on October 26

Scanfil plc will publish its interim report for January-September 2022 on Wednesday, 26 October 2022, approximately at 8:00 a.m. EET (7:00 a.m. CET).

English webcast for analysts, investors and media will be held on the same day at 10:00-11:00 a.m. EET. Results will be presented by CEO Petteri Jokitalo.

You can register and join the webcast at <https://scanfil.videosync.fi/q3-2022-results/>. The audience can ask questions via chat. Questions will be addressed at the end of the conference.

An on-demand version of the webcast and the presentation material will be available on the company's website later on the same day.

#### Scanfil in brief

Scanfil is an international manufacturing partner and system supplier for the electronics industry with over 45 years of experience in demanding manufacturing. Scanfil provides its customers with an extensive array of services, ranging from product design to product manufacturing, material procurement and logistics solutions. Vertically integrated production and a comprehensive supply chain are the foundation of Scanfil's competitive advantages: speed, flexibility and reliability.

Typical Scanfil products are modules or integrated products for e.g. self-service application, automation systems, wireless connectivity modules, climate control systems, collection and sorting systems, analysers and weather solutions. Scanfil services are used by numerous international automation, safety, energy, cleantech and health service providers, as well as companies operating in the field of urbanisation. Scanfil's network of factories consists of 9 production units in Europe, Asia and North America. Read more: [www.scanfil.com](http://www.scanfil.com)
