Scanfil is an international manufacturing partner and system supplier for the electronics industry with over 45 years of experience in demanding manufacturing. Scanfil provides its customers with an extensive array of services, ranging from product design to product manufacturing, material procurement and logistics solutions. Vertically integrated production and a comprehensive supply chain are the foundation of Scanfil's competitive advantages: speed, flexibility and reliability.

Typical Scanfil products are modules or integrated products for e.g. self-service application, automation systems, wireless connectivity modules, climate control systems, collection and sorting systems, analyzers and environmental measurement solutions. Scanfil services are used by numerous international automation, safety, energy, cleantech, connectivity and health service providers, as well as companies operating in the field of urbanization. Scanfil's network of factories consists of 9 production units in Europe, Asia and North America. More information about the company: www.scanfil.com
