Scanfil plc Stock Exchange Release 21 April 2026 at 5.00 p.m. EEST

Scanfil Comparison Figures for Updated Customer Groups

As of Q1 2026, Scanfil starts to report the Aerospace & Defense business as a separate customer group. Until now, it has been reported as part of the Industrial customer group.

Reporting change will improve transparency and underline the significance of the business brought by the recently acquired companies and the fast-growing Aerospace & Defense market. Newly acquired ADCO Circuits and MB Elettronica have significant exposure to the Aerospace & Defense industry.

In the attachment, you can find customer group turnover comparison figures for 2024-2025.

Scanfil in brief

Scanfil plc is one of the biggest European electronics manufacturing services (EMS) companies. The company serves global sector leaders in Aerospace & Defense, Energy & Cleantech, Industrial, and Medtech & Life Science. The company's services include design services, prototype manufacturing, design for manufacturability (DFM) services, test development, supply chain and logistics services, circuit board assembly, manufacture of subsystems and components, and complex systems integration services. Scanfil's objective is to grow customer value by improving their competitiveness and by being their primary supply chain partner and long-term manufacturing partner internationally. Scanfil's longest-standing customer account has continued for more than 40 years. The company has global supply capabilities and 16 production facilities across four continents. www.scanfil.com
